

CARGOWISE EDI EXHIBITS EDIENTERPRISE AT TRANSRUSSIA

SYDNEY, AUSTRALIA (March 30, 2007)--CargoWise edi presented their award-winning software solution to leading experts and top managers from the Russian transport industry at the annual TransRussia Exhibition on 27–30 March 2007 in Moscow. TransRussia is the leading transport forum of Russia, CIS and Baltic countries and the key meeting point for logistics businesses.

The Forum enjoyed the full support and commitment of the Ministry of Transport of Russia, JSC «Russian Railways», the Federal Agency of Railroad Transport and the Federal Customs Service. 415 companies representing 25 countries participated in the exhibition. 15,000 visitors came to the 10000 sq m. event. Delegates represented transport authorities from Central European countries, international and Russian freight forwarders, state and private railways, owners of railcars, ports, shipping lines, airfreight companies, major manufacturers, and financial institutions.

Volodya Bilanovsky, VP Business Development for Eastern Europe for CargoWise edi said,“*ediEnterprise* our flagship solution is used by more than 25000 users in over 1000 companies in 40 countries worldwide. As a true global company we are excited to establish our presence in the Russian market and looking forward to the new opportunities in this fast growing logistics marketplace. Many of our global customers in Asia and the U.S.A. are pursuing business opportunities in the region, and they will be pleased to know that we are here to support their efforts.”

CargoWise edi demonstrated *ediEnterprise* at TransRussia with a 5 person team lead by Mr Alexey Markov. There was extensive interest in the product, especially the workflow management model used in *ediEnterprise* a world-leading software product for freight forwarding, NVOCC, customs brokerage, container freight station, ships agency, warehousing, cartage and trucking companies. With the immense interest received during the TransRussia tradeshow, CargoWise edi announces the beginning of sales in this promising transportation region.
